

GAINS REPLACE EARLY LOSSES

Oil Shares and Specialties of Many Kinds at Year's Peak Prices

NEW YORK, Oct. 6.—Disquieting news dispatches from the Near East induced profit taking by recent buyers and renewed activity by short interests at the opening of today's stock market with the result that most of the list turned quite heavy. Active specialties of Standard Oil of California, Mexican Petroleum and General Asphalt. Marine preferred which was strong Thursday on reports of extra earnings for the third quarter, turned heavy today, losing 2 1/2 points in the first half hour. Other weak specialties were Standard Oil of California, Middle Valley, Baldwin and Coca Cola. There were a few exceptions to the downward trend. United States Rubber first preferred advanced 1 point on declaration of the annual dividend and Pierce Oil preferred advanced one-half point. Woolworth and Air Reduction broke through to new high records on small gain.

The complexion of the market underwent a rapid change about noon when a remarkable series of bullish demonstrations was staged in a number of high-priced specialties. The maneuver threw the "bears" into a momentary panic and there was a mad rush to get back stocks sold at the opening, resulting in an almost complete cancellation of losses. Standard Oil of New Jersey jumped from 21 1/2 to 22 1/2, a new high record, and Tidewater Oil moved up 1/2 to a new top in expectations of a resumption of dividends. The gains were established by Houston Oil, Wells Fargo Express, May Department Stores, Fisher Body, DuPont Powder, National Biscuit, Corn Products and United Fruit, the gains ranging from three to nearly 10 points. Other strong spots were Western Union, Adams Express and Gulf States Steel, all up 2 1/2 to four points. Call money opened and closed at 4 1/2 per cent.

LESS CANE SUGAR REFINED LAST YEAR

WASHINGTON, Oct. 6.—A considerable decrease in the refining of raw cane sugar, mostly imported, in 1922 as compared with 1921 was shown in figures made public today by the department of commerce. The statistics did not include reports on establishments manufacturing sugar syrup and molasses from domestic grown cane.

The combined output of 21 establishments listed for 1921 averaged 65 per cent of their maximum capacity. The value of their output and sales totaled \$489,214.25 as compared with that of 20 establishments in 1921 amounting to \$729,386,708. This decrease was accompanied by a decline in the number of persons employed.

GRAIN
CHICAGO, Oct. 6.—Disquieting news regarding the Turkish situation led to a moderate upturn in the wheat market today during the early dealings. Bullish sentiment, however, was checked by dispatches from London, asserting that the outlook was still for peace, although intervals of anxiety were in prospect. Export demand continued active but was largely offset by transportation difficulties east of here and by liberal primary receipts. The opening, which ranged 3/4 to 1c higher with December 11¢ to 11 1/2¢ and May 11¢ to 11 1/2¢, was followed by a reaction, wiping out most of the initial gains.

Corn and oats were under considerable selling pressure and failed to sympathize with the upturn in wheat. After opening unchanged to 3/4 lower, December 6 1/2¢ to 6 1/4¢, the corn market hardened a trifle and then suffered moderate general advance. Oats started 1/4 to 3/4 higher, December 5 1/2¢, and later underwent a general sag.

Provisions reflected the upward tendency of hog prices.

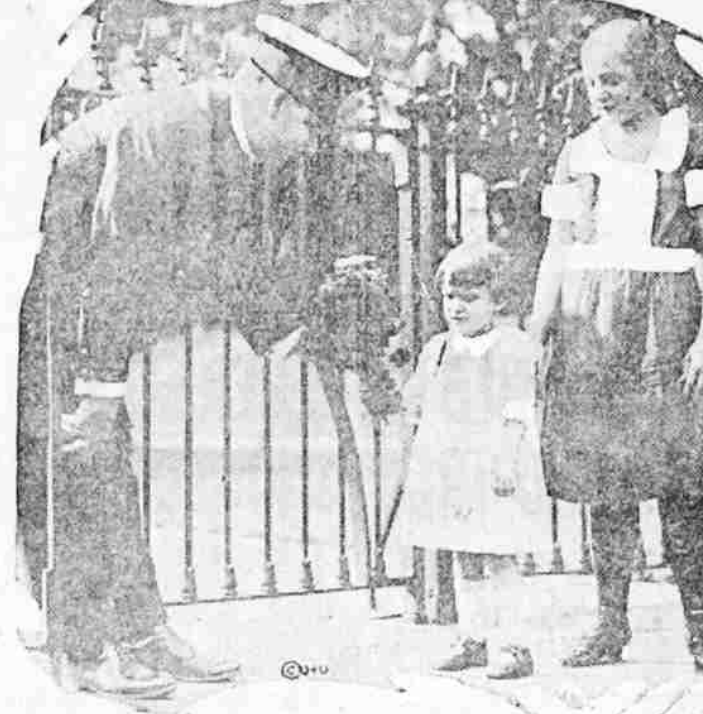

Dust from the Sahara Desert, blown by wind, is said to have settled thickly on the decks of a steamer 250 miles off the United States coast.

PERSIAN STUDENTS TO TRAIN IN FRANCE

TEHRAN, Persia, Oct. 2.—The Persian government will send 60 army officers to France to receive their military education in the army school of that republic. On their return to Persia these men will be charged with the re-organization of the Persian army. Two hundred thousand francs have been appropriated to meet the expenses of the experiment.

Islands in Lake Victoria, Nyanya, Central Africa, have become entirely depopulated by sleeping sickness.
